Every day, tons of towels are unnecessarily washed worldwide. To protect the environment and save costs, we also try to be mindful at Adler. You'll find Sparmarkt Knittel, Sport Jug three times, Sportraum Warth, Wäldermetzge, Alte Sennerei, and NEW, the cultural space "Stuba Läden" behind the Warth church, with various regional products in an ancient Walser house from the 17th century with historical backgrounds and insights into the world of our three Olympic medalists Wiltrud Drexel, Hubert Strolz, and his son Johannes Strolz.

In the basement of the apartment building, there is a modern fitness area with strength and endurance equipment. It is open daily from 07:30 to 22:00, and you can access it with your key card. Geschichte/History

Brief history in a nutshell: Around 1500, the Walser settled in Hochkrumbach. In its heyday, there were 11 households, 52 inhabitants, a priest with a church (Simmelkapelle), and an inn, the "Gasthaus Adler." About 200 years ago, Hochkrumbach was incorporated into Warth as it was hardly inhabited anymore. Around 1910, the Adler burned down. The Strolz extended family bought the ruins and built a charming mountain inn. Erich Strolz took over this establishment, and thus, Hochkrumbach, at least the Adler, was inhabited year-round again. Major expansions occurred in 1958, 1972, and 1987. In 1992, private and staff apartments were built, in 1998, the apartment building, in 2002, the garage facility, and in 2011, the new wellness area. Markus Strolz, son of Erich Strolz, managed the business from 1987 to 2023. From December 2023, his nephew Patrik Marinelli is the "boss."

The "Adler" in the 1950ies.

If you want to bring your dog to the restaurant, we have reserved special places for you. You'll find "dog bags" in front of the hotel and in the ski room. Please use them in both summer and winter, and dispose of them in the bins. Dog owners will receive an information sheet upon arrival. Wearing a muzzle is mandatory in public transportation.

Lawinen/Avalanche Danger

The Arlberg region is known for massive amounts of snow. On some days, a meter of new snow can fall. Great for winter sports enthusiasts, but unfortunately, avalanche danger increases on such days. Please strictly follow closures of slopes, cross-country skiing trails, winter hiking trails, or roads. If you venture off these organized paths into open terrain for skiing or snowshoeing, make sure you have the necessary knowledge and safety equipment and know how to use it. You can find the avalanche report on www.lawine.at. In winter, our mountain guide Markus organizes a weekly avalanche safety training for interested guests. Each hotel room/apartment has a safe. We recommend using it for storing valuables. The safe's contents are insured up to Euro 3000,-. We cannot be held liable for valuables exceeding this amount.

Snowshoes

We rent snowshoes for Euro 6,- per day. Consult with our guides Patrik and Markus for tours and safety tips. Snowshoe rental may be restricted at avalanche warning level 3, and it's unavailable at level 4 or higher due to safety reasons.

Swimming Pool

The nearest public indoor pool is Aquanova in Steeg www.aquanova.at. In summer, we recommend Waldschwimmbad Lech or the pool in Schoppernau. For those who prefer natural settings, Körbersee or Kalbelesee are great options.

Ski Depot/Ski Room/Boot Heating

Our new ski storage has numbered spaces for each room/apartment to prevent mix-ups. Please adhere to the numbering. Boot warmers are heated daily. Wet clothing dries best on these heated hooks.

Ski Area

The Adler is in the heart of the Warth-Schröcken ski area. Ski directly from the hotel to the Jägeralpbahn valley station and return from the Saloberkopfbahn valley station. Take the Körblift and push back to the hotel or use the free buses from any lift station back to the hotel.

If you continue towards Lech and Zürs, please don't forget that the Auenfeldjet connection lift closes at 4:00 PM. If you don't reach it in time, getting back to the Adler by taxi will be a long and expensive journey.

Ski Tickets

Most ski tickets are available at our reception. The easiest and recommended option for proficient skiers is the large Arlberg ski pass. This pass allows you to use all lifts in Warth-Schröcken-Lech-Zürs-Stuben-St. Anton. www.skiarlberg.at

If you prefer a more leisurely pace or only want to ski for a few hours, we recommend the Warth-Schröcken ticket, covering 16 lifts in the vicinity. The ticket becomes cheaper every half hour starting from 11:00 AM. This allows you to enjoy a few more hours on the slopes in the afternoon.

www.warth-schroecken.at

The third option is the 3-Valley Pass, covering the Bregenzerwald, Großes Walsertal, and Lechtal. While it may be a bit cumbersome to travel by car or bus to other ski areas in the valleys, this pass is the more economical choice if you plan to ski exclusively in Warth-Schröcken for the entire week. Additionally, if you decide to take a trip towards Lech, you can purchase a discounted additional ticket for the Arlberg.

Ski Schools

The Salober Ski School at the Saloberkopf valley station offers a VIP service for children from the hotel. Early registration is recommended. Other ski schools in Warth include www.skischule-warth.com and www.arlberg-snowsports.at.

Ski Tours

Various ski tour options are available for powder or firm. Our ski tour guide Markus offers weekly introductory tours and safety training. Participation is free, and equipment can be rented at Sport Jug.

Spielbereich/Play Area/Playground

The basement has a game area with table football, table tennis, billiards, Wii, and other games. The winter outdoor area in front of the hotel offers extensive opportunities for snow activities.

Sports Shops

Sport-Jug at the Jägeralpbahn, Saloberkopfbahn, and Steffisalpbahn valley stations has a sports shop <https://www.sport-jug.at>. Another option in Warth and Schröcken is www.sporttraum.at. Both sport shops offer an online-reservation-system.

Tankstelle/Gas Station/E-Charging

The nearest gas station is in Au, Bregenzerwald, 18km away. In Lechtal, there's one in Stockach (22km), and in summer, there's also one at the outskirts of Lech. Electric cars can be charged at the hotel with a capacity of up to 12 kW for 55 Cent per KWH.

Taxi

The Hotel Wartherhof operates a taxi service until 10:00 PM. Tel: +43 5583 3504. Shuttle assistance for arrivals or departures from/to the train station or airport is available upon booking.

Trinkwasser/Water/Restaurant Water:

From every tap in the hotel, you have access to drinking water from our own Widderstein spring. This water is transported into the house through the municipal water network of Warth without any additives, and the associated costs are not excessively high. However, if you choose to consume our drinking water in the restaurant, whether with or without soda, it involves many steps and the effort is comparable to that for flavored beverages.

It is pleasing to note that sugary drinks are on the decline, and our guests are increasingly opting for healthy water. To ensure that our restaurant operates cost-effectively, there is a charge for our precious water. However, for wine enthusiasts, a complimentary bottle of water is provided with each bottle of wine.

Tourist Office Warth/Schröcken

Located in the center of Warth. Find more information on the website: www.warth-schroecken.at.

Tipping

... is treated differently worldwide. In Austria, gratuities are not included in the prices. If you were satisfied with our services, our staff would appreciate a tip. You can give a tip directly to each staff member. Alternatively, if you prefer that all hotel employees share a portion of your tip, you can deposit it at the reception, and it will be distributed equitably among all employees. This way, even the hardworking behind-the-scenes helpers receive their share.

TV

Available in each hotel room and apartment. Check the TV program overview at www.tele.at.

Umwelt/Environment

The location of our hotel is exceptional—isolated in the midst of nature, surrounded by towering mountains, directly on the mountain pass at an elevation of 1675 meters. Our mountain meadows with their variety of flowers and herbs are unique. The indigenous residents, including ibexes, marmots, eagles, foxes, and all the other magnificent creatures of our mountain world, deserve protection. Please observe relevant guidelines and prohibitions in both winter and summer.

We've converted our heating system from oil to pellets, and additionally, there is a 70m² solar installation in the apartment area. A photovoltaic system is in the planning stages; the challenge lies in the abundance of snow in winter. Wastewater flows into the wastewater treatment plant 5 km away in Warth, and we source our drinking water from springs beneath the Widderstein.

We prioritize short delivery routes for our groceries, focus on regional and fair-trade products. We believe that our guests should not dispose of waste in nature but should instead separate it as effectively as possible or, even better, avoid it altogether. Contributing to this effort includes the sensible reuse of hand and bath towels, avoiding single-use items, and using public transportation (who needs a car at Adler). You can make your contribution. Don't forget the regulation of heating in rooms and apartments and the potential for saving water and electricity.

However, amid all these conservation efforts, we want you to feel comfortable at all times in our establishment.

Do you have any good ideas on environmental issues?

Wäsche/Laundry Service

Traditional laundry services is not provided, but urgent laundry needs can be discussed with the reception.

Wake-Up Call
